Employees working Alternate Hours of Work will be subject to the specific provisions of the Alternate Hours of Work – Shift Schedules Addendum. Articles in the Addendum supersede various provisions of the main body of the Collective Agreement.

Alternate Hours of Work are any shift schedule which incorporates daily hours of work in excess of eight (8) hours per day.

(a) Subject to the specific provisions of this Agreement, employees will be scheduled to work a five (5) day, forty (40) hour work week, the five (5) days being consecutive, where practicable.

(b)* Day Shift

The hours of work for employees engaged in the day shift will be any nine (9) consecutive hours, including one (1) hour off for lunch; or any eight and one-half (8 1/2) consecutive hours, including one-half (1/2) hour off for lunch; or by mutual agreement between the parties to this Agreement, in instances where employees are required in attendance at their worksite during lunch, any eight (8) consecutive hours, including adequate time off for lunch, between 05:00 and 18:00 hours (5:00 a.m. and 6:00 p.m.) for five (5) days per week. Changes in the hours of work for the day shift will not constitute a change of shift provided that such hours of work are consistent with the preceding provisions set forth in this Clause (6.01**(b)**) and provided that not less than twelve (12) hours' notice is given to the employee.

(c) Afternoon Shift

The hours of work for those employees engaged in a shift, the major portion of which falls between 16:00 and 24:00 hours (4:00 p.m. and 12:00 midnight), will be any eight (8) consecutive hours, including adequate time off for lunch, for five (5) days

per week.

Employees in these shift rotations must have their hours of pay balanced to pay them their full time wages bi-weekly (e.g. If the employee is a forty (40) hour per week worker they will be paid eighty (80) hours bi-weekly even when the shift rotation may require less than eighty (80) hours in that said pay period). Consequently the shift rotation may have more than forty (40) hours per week and more than eighty (80) hours in the pay period, however the employee will not receive overtime for these scheduled hours.

Consecutive days off are included in the regular schedule, however, the regular scheduled shift may be changed temporarily to maintain efficient operation of the Company. The extra hours accrued due to the temporary shift change must be balanced with time off in lieu of the extra hours worked.

Hours worked and lunch will be determined dependent upon employee, Company, and Union requirements.

(f) The hours of work stated in Clauses 6.01(a), 6.01(b), 6.01(c), 6.01(d) and 6.01(e) are stated solely for the purpose of calculating overtime.

(g) Except as provided for in Clause 6.01(h), where a change of shift is required due to conditions of the service, the following conditions will apply on the first day of the change:

- (i) Forty eight (48) hours' notice must be given of the change prior to the commencement of the new shift.
- (ii) There must be a minimum of eight (8) hours between shifts.
- (iii) The employee must not have worked previously in the calendar day of the first shift worked.

(i) Rest Periods

Employees will be permitted a fifteen (15) minute rest period midway during the first and second four (4) hour period of their shift.

(j)* Wash-Up Time

Employees ***who have come in contact with occupational health hazards (such as chemical, biological and airborne industrial contaminants)*** will be allowed wash-up time of ten (10) minutes before lunch and ten (10) minutes before the end of the shift, unless adequate wash-up facilities are provided at the job site.

6.02. Overtime Work

- (a) When the Company requires overtime work, it will first determine if its requirements can be met from those qualified and competent employees willing to work overtime and only in the event of insufficient qualified and competent employees being available will the Company be able to direct employees to work overtime. All scheduled overtime will be distributed as evenly as possible among employees in their respective jobs. The Company will advise employees of an overtime requirement within a reasonable period of time of the overtime need arising.
- (b) Where an employee is required to work hours in excess of his shift, he will be paid two (2) times his regular rate of pay for such hours worked.
- (c) An employee called out for emergency work outside his shift, but not immediately preceding it, will receive not less than two (2) hours pay at two (2) times his regular rate of pay. Calls within two (2) hours of each other will be considered as one call for the purpose of computing minimum pay for an employee called out.
- (d) An employee required to work overtime following the completion of his scheduled hours of work will be eligible for a lunch break of one-half (1/2) hour without loss of pay, following completion of two (2) hours overtime, provided overtime is to continue. If the conditions of the service require otherwise, the supervisor will assign the lunch period. Regardless of the time of the initial lunch break, it will be deemed to have been taken after the completion of two (2) hours of such overtime work.
- (e) Employee Fatigue
 - (i) An employee's scheduled hours of work will be confined within a period of twelve (12) consecutive hours in any one workday.
 - (ii) The Company will follow the applicable EPCOR Corporate Safety policy in order to meet the operational demands for urgent and /or emergency work situations.
 - (iii) If a rest period extends into an employee's regularly scheduled shift; the rest period will be without loss of pay. After the rest period, the employee will work the remaining balance of their scheduled shift or they may request to use banked time, vacation time or time off without pay for the remaining hours of their scheduled shift.

6.03. Banked Time

- (a) An employee will have the option to receive overtime, standby pay, or pay for work on off days, or pay for work on statutory holidays at his regular rate of pay and credit an equal dollar amount to his banked time or to credit the total dollar amount to his banked time.
- (b) The time equivalent of dollar amounts in an employee's overtime bank may be scheduled as time off, as mutually agreed to by the employee and the Company.

The immediate management supervisor or his designate has the discretion to approve employee requests for use of their banked overtime. Such requests shall not be unreasonably denied.

Upon production of a medical certificate, a female employee may commence sick leave prior to her estimated date of delivery. Such sick leave will not be considered part of maternity/parental leave.

- (h) Whenever employees are absent for more than the approved period of maternity/parental leave, unless the absence is due to a maternity complication related to the valid, health-related portion of the pregnancy and is substantiated by medical evidence satisfactory to the Company or unless the failure to report is the result of unforeseen or unpreventable circumstances, they will automatically be deemed to have terminated their employment when said period expires.
- (i) Employees returning from maternity/parental leave within the approved period will be given the same position at their current rate of pay, and will provide as much notice as possible, but not less than four (4) weeks' notice to the Company of their return to work. - 9.01.* The normal probationary period for new or temporary employees hired into permanently established positions will be six (6) months. These probationary employees will have access to the Dispute Resolution Process in Article 14.
- 9.02.* In certain instances, the normal probationary period may be extended to a maximum of one (1) year. In the event that the normal probationary period is extended, the employee and the Union will be advised of the Company's valid reasons in writing.
- 9.03. A formal written review will be conducted at three (3) month intervals for all probationary employees.
- 9.04. A probationary employee who does not meet the requirements of the position or for permanent status during the probationary period will be separated from service or reverted to his former position. The employee and the Union will be notified in writing of the reason for the separation and/or reversion.
- 9.05. It will be permissible for more than one member of a family to be employed by the Company, provided that no employee will be in direct supervision of another member of their immediate family, as described in Clause 8.04(a), (i) and (ii).

It is further understood that the employment of family members by the Company will be consistent with EPCOR's Compliance and Ethics Policy.

10. Promotions

- 10.01. In making promotions within the jurisdiction of the Union, the required knowledge, qualifications and skills (both non-technical and technical) contained in the job posting will be the primary considerations. Where two (2) or more applicants are equally qualified to fulfil the duties of the position, seniority will be the determining factor.

Technical skills include required knowledge such as education, special courses, internal and external qualifications, accreditation, or certification.

Non-technical skills are those skills required for effective working relationships at the interpersonal, group, and organization-wide level. Non-technical skills may include problem solving ability, communication, reliability, planning or organizing, leadership qualities, decision making, and initiative.

- 10.02. Employees, upon promotion, will have a trial term of three (3) months, and in certain instances, this term may be extended to a maximum of one (1) year. In the event that the trial term is extended, the employee and the Union will be advised of the Company's valid reasons.
- 10.03. During the trial term, an employee may revert to his former position or may be reverted by the Company.
- 10.04. Tests will be relevant to the position applied for.

11. Layoffs and Rehires

- 11.01.* In the event that the Company identifies the need to implement lay-offs, the following provisions will apply.

Prior to the lay-off of permanent employees, temporary employees within the affected class will be laid off.

Where the Company has determined that permanent positions are to be reduced within a classification, they will identify the permanent employees who will be potentially affected.

The Company will notify the Union at the earliest opportunity of the intent to reduce permanent positions and employees who are to be impacted.

Prior to reducing the number of permanent positions and displacing or laying off permanent employees the parties agree to jointly explore alternatives to lay-off and options for providing support to displaced/laid off permanent employees.

Employees potentially affected will be advised to assist in exploring appropriate alternatives to lay-off.

Permanent employees who are displaced from their permanent positions or are laid off as a result of the reduction of permanent positions will receive appropriate notice in accordance with the Employment Standards Code.

For the purpose of layoff, there are **two (2)** "sites" within the Company as defined below:

- 1) ***Edmonton Water Treatment Plants (including Rossdale, E.L. Smith and other work locations) and Gold Bar Wastewater Treatment Plant***
- 2) ***Water Services (including any other employees and the business units of Water Distribution & Transmission, Wastewater Collection and Construction)***

When lay-offs are to be implemented, the Company will commence the process by first reviewing the highest level classification affected. The permanent employee within the site who was last appointed to a position in the class to be reduced will be the first employee removed from the classification.

Where the employee removed from the classification is senior to an employee in the same classification at a different site, the employee will be eligible to displace the least senior employee within the classification provided he is qualified and able to perform the duties of the position.

Employees so affected will be eligible to revert to the next lower classification, providing that the employee is qualified and able to perform the duties of the position. Such employees will use their overall Union jurisdictional seniority for positioning within the lower classification. The overall Union jurisdictional seniority will become the date of the appointment to the lower classification.

In the event that an employee is unable to perform the duties of the next lower classification, is not qualified, or has less overall Union jurisdictional seniority than other incumbents, he will continue to revert to the next lower classification until he is eligible to receive a position and is able to fulfil the duties or is ultimately laid off. Employees reverting to lower classifications will use their overall Union jurisdictional seniority to displace an employee with less Union jurisdictional seniority.

Employees who revert to the Labourer II classification must be able to perform the duties of the position but in the event that they do not possess the formal qualifications for the position, they will be allowed one year to acquire the formal qualifications. In the event that

they do not acquire such qualifications, they will be laid off.

If, prior to the implementation of a layoff, an employee had been allowed to remain in a classification without possessing the formal educational qualifications required for the classification, then such employee will be deemed to possess all of the formal educational qualifications for all lower level classifications.

Displaced employees who choose not to accept an alternate position or who have no alternate position to bump into as a result of the lay-off process, will be laid off.

- 11.02. Laid off employees will be recalled to vacant positions for which they are qualified and able to perform in the reverse order of their lay-off at any time in the twenty four (24) month period following their lay-off. The last employee laid off from a classification will be the first employee eligible for recall.

Laid off employees who have exhausted the normal lay-off process, will be provided a general priority throughout the Company for any vacancy for which they are qualified. General priority will mean that permanent laid off employees will be given an interview and due consideration for vacant positions for which they apply and are considered fully qualified.

- 11.03. The layoff provisions will not apply in those instances where the cessation of work is estimated to be of a duration of one (1) calendar week or less. In such cases, the Company will determine which employees will be affected with due regard for seniority, however, it is understood that seniority in these instances will not override bona fide operational concerns. Employees will have the option, with the approval of the Company, to use vacation or banked overtime credits rather than be laid off for any days applicable to this clause. The Company will also make every reasonable effort to retain employees for the duration of the short-term lay-off in other alternate work.
- 11.04. A permanent employee who occupies a temporary position within a class being reduced will be deemed to be the junior employee in the class for the purposes of this section.
- 11.05. A permanent employee who is laid off and is subsequently rehired within twenty-four (24) months, into a temporary or permanent position will be entitled to the benefit coverage of a permanent employee. A period of lay-off for twenty-four (24) months or less will not affect a permanent employee's seniority and such periods will form part of the service for the purposes of determining seniority.
- 11.06. Employees will not be eligible to displace an employee in a position in a lower class if the position in the lower class will be deleted within thirty (30) calendar days.
- 11.07. When an employee reverts to a lower classification this will not result in an increase in the employee's regular rate of pay except when a permanent employee has accepted a lower rate of pay than the rate of his former position as a result of entry into an apprenticeship program. In such circumstances, if the apprentice position is deleted in accordance with the layoff process, such employee will be eligible to revert from his former position in accordance with the layoff process.
- 11.08. Except in cases of emergent conditions, temporary employees who have been in the service of the Company for more than thirty (30) days will receive notice of lay-off two (2) working days prior to the effective date of lay-off. In the event that such notice is not provided, the Company will provide the employee with a payment equal to the wages the employee would have earned had he worked his regular hours of work.

- 11.09. Where the duration of the job is dependent upon seasonal conditions, temporary employees will be given an estimated lay-off date. Such estimated date will satisfy the Company's obligations stated in Clause 11.08. Laid off permanent employees who are re-engaged into positions which are dependent upon seasonal conditions will be given an estimated lay-off date. Such estimated lay-off date will satisfy the Company's obligations in Clause 11.01. For both these situations the estimated lay-off date will be conveyed to the employee with as much advance notice as is reasonable.
- 11.10. If a permanent employee is recalled within the twenty-four (24) month period and refuses the appointment, the employee will lose all rehire rights to former positions unless any of the following conditions exist:
- (1) The employee is engaged in alternate employment within the Company and the area of the Company initiating the recall and the area of the Company in which the employee is employed in at the time of the recall, agree to permit the employee to remain in such alternate employment or
 - (2) The Company agrees to permit the employee to remain laid off.
- 11.11. If two (2) or more permanent employees occupy the same classification to be reduced, and such employees have the same date of appointment and the same bargaining unit seniority, the Company will determine the relative order that such employees are to be removed from the classification for the purposes of lay-off.
- 11.12. The recall provisions of Article 11 will override and supersede the provisions of Article 10. "Promotions" and Article 12. "Posting and Filling Vacancies".
- 11.13. Rehire of Temporary Employees
- (a) There will be no requirement to post seasonal vacancies filled by temporary employees.
 - (b) The rehire of temporary employees will be subject to satisfactory performance evaluations.
 - (c) Disputes arising from failure to rehire or performance evaluations will proceed in compliance with the grievance procedure with the final step being the Director of Labour Relations whose decision will be final and binding on the parties.
 - (d) The performance evaluation procedures for temporary employees will be reviewed by the parties prior to any changes being implemented.
- 11.14. Technological Change
- (a) Any employee classified as a permanent employee will be considered displaced by technological change when his services will no longer be required as a result of a change in plant or equipment, or a change in a process or method of operation, diminishing the total number of employees required to operate the Subsidiary Company in which he is employed.
 - (b) Permanent employees so affected will be given reasonable advance notice in order that they may take advantage of all available opportunities commensurate with their abilities.
 - (c) The Company agrees that wherever possible, no employee will lose employment because of technological change; however, whenever it is

necessary to reduce staff, it will be done in accordance with the layoff procedures outlined in this Agreement.

11.15. Employment Security

The parties agree to participate in a consultation process concerning the contracting out of work otherwise performed by employees within the jurisdiction of the Union where the work has been performed in-house in whole or part in the recent past, presently, or where work is being considered for future contracting. The purpose of the consultation will be to share information such as labour, equipment, administration and overhead costs, the reasons for contracting out, and to review Union suggestions with respect to these decisions. Meetings involving appropriate Company Representatives and up to four (4) Union Representatives will be conducted as agreed between the parties.

The Company agrees to provide the Union with reasonable opportunity to present alternatives to contracting out prior to implementation. Consistent with the Company's commitment to the development of their employees, the Company agrees to consider appropriate re-training or re-deployment opportunities for employees negatively affected by technological change, layoff or contracting out.

The Company recognizes and agrees that, during the term of this Agreement, no permanent employee will be laid off as a direct result of contracting out the work performed by such permanent employee.

In the event that a permanent employee is displaced as a result of contracting out the work, the Company will place said employee in any position for which he has the required qualifications. In the event that a permanent employee is placed in a lower position, said employee will suffer no loss of wages, for a period of two years, as a result of being displaced.

12. Posting and Filling Vacancies

For the purposes of this section "working days", will be consecutive days, exclusive of Saturdays, Sundays or holidays observed by the Company.

12.01. Permanent Postings

- (a) Any vacancy required to be filled will be immediately and conspicuously posted for seven (7) calendar days, in a standard form provided by the Company. A copy of all said postings will be sent to the Union.
- (b) Where the conditions of service indicate that the position is required to be filled immediately, a temporary appointment may be made for the duration of the posting procedure which will in no instance exceed ninety (90) calendar days.
- (c) Should the Company contemplate not filling a vacancy, the matter will be discussed by the parties to this Agreement within ninety (90) calendar days of the vacancy occurring. This Clause will not apply to temporary positions that are seasonal in nature.
- (d) Job postings will contain a description of the position functions, the required knowledge, skills and qualifications for the position, hours of work for the position, and the wage rate for the position. The Company may include other information on the posting.
- (e)* All applications will be addressed to the Company as indicated on the posting and

will include the return address of the applicant.

- (f) Appointments may be made by mutual Agreement between the Union and the Company without a posting.
- (g) The Company will have the right to fill vacancies which result from reversions or terminations of employment during normal probationary periods or trial terms from among the original applicants without posting such vacancies.
- (h) Employees will be eligible to apply for jobs not coming within the scope of this Agreement and will receive consideration in accordance with their qualifications, experience and seniority. However, nothing in this Agreement will be deemed to bind the Company to appoint an employee to a job which does not come within the scope of this Agreement.
- (i) Positions becoming vacant as a result of foreseen retirement will be posted thirty (30) days prior to such vacancy occurring.

12.02. Temporary and Relief Postings

In addition to Clause 12.01., the following will apply to temporary and relief postings.

- (a) Where the estimated duration of a temporary position is ninety (90) calendar days or less, no posting will be required. Where the estimated duration of the temporary position exceeds ninety (90) calendar days, the temporary position will be posted. The duration of a posted temporary position will be set out in the posting.

In instances where more than ninety (90) calendar days are required, the Company and the Union may mutually agree to extend the timeline for the temporary appointee or to rotate additional individual(s) into the position for up to ninety (90) calendar days each.

- (b) Relief positions to cover temporary absences or other opportunities that may require relief work will be posted annually. Selected candidates will be temporarily staff-formed into relief positions wherever practicable and they will be provided appropriate feedback through the Aligning Performance for Results (APfR) Program.

Employees completing relief positions will also receive written confirmation of the hours they spent performing in a relief capacity in order that they may reference this experience in future posting applications.

When special circumstances dictate, the Company may utilize the temporary posting option or request a waiver of posting from the Union.

- (c) In instances where a permanent employee is appointed to temporarily act in a position within or outside the scope of this Agreement, for a period of twelve (12) months or less, and such employee is reverted or reverts to their former position or an equivalent position within the scope of this Agreement, then no posting will be required to complete such reversion. In circumstances where such reversions displace other employees, such employees in turn will be reverted to their former position.

12.03. Selection

- (a) The hiring supervisor will verbally communicate with internal applicants who are not selected for the interview process. The purpose of this communication will be to clarify the supervisor's reasons for not interviewing a particular applicant.
- (b) Upon completion of the selection process, Human Resources will notify the Union in

- (e) The hiring supervisor will verbally communicate the name of the proposed appointee to each of the applicants on the posting who are senior to the proposed appointee. Information will be provided as to the reasons they were unsuccessful and the knowledge, skills and experience that could be improved for future selection processes.
- (f) An unsuccessful internal applicant may request a meeting with the hiring supervisor to identify the reasons for non-selection to a job. The unsuccessful applicant may also have a Union representative at this meeting.

- 13.03. A list showing seniority of employees will be furnished once annually by the Company to the Union.
- 13.04. Should a permanent employee, who assumes the functions of a position which is outside of the scope of this Agreement, revert or be reverted to a position within the scope of this Agreement within a twelve (12) month period, then such employee's seniority standing within this Agreement will be deemed to be uninterrupted and will include the time period during which the employee assumed the duties of such position outside the scope of this Agreement, unless otherwise mutually agreed between the Union and the Company.

While a permanent employee assumes the responsibilities of a permanent position outside the scope of this Agreement, they will not be required to pay Union dues in order to retain their reversion and seniority rights for up to the twelve (12) month period of time.

- (g) Where each party has established an appointee to a three-person arbitration board, the appointees so selected will, within fourteen (14) calendar days of the appointment of the second of them, appoint a third person who will be the chairperson. If the two (2) appointees are unable to agree upon the choice of a chairperson within the time limit specified, they will request the Director of Mediation (responsible for labour issues) to appoint a chairperson.
- (h) If the single arbitrator, either member of the arbitration board, or the chairperson thereof, refuses to act or is or becomes incapable of acting, a new single arbitrator, new board member or chairperson will be appointed in accordance with the above procedure. - (n) In the case of an arbitration board, the decision of the majority is the award of the board. If there is no majority, the decision of the chairperson will be the award of the arbitration board.
- (o) The decision of the single arbitrator or arbitration board is final and binding upon the parties and any person affected by it, and such parties or persons affected will do or abstain from doing anything as required by the single arbitrator or arbitration board.
- (p) The arbitration board or single arbitrator may quash, confirm or vary any action taken respecting the suspension, discipline or discharge of an employee.
- (q) The arbitration board or single arbitrator by its decision will not alter, amend or change the terms of the Collective Agreement.

Such Agreements will be confirmed in writing.
- (c) If the Union or the Company has concerns regarding the application of the Dispute Resolution Process, they will meet in an attempt to resolve these concerns.

15. Reporting for Duty

- 15.01. Employees will report for duty at the commencement of their shift, at a place directed by the Company and will go to and from such place on their own time.
- 15.02. When an employee is directed by the Company to utilize their personal vehicle to move from jobsite to jobsite or to travel outside the City limits to report for work when directed by the Company, they will be provided with a transportation allowance in accordance with applicable Company Policy and will comply with all provisions of the Policy.
- 15.03. Employees required to travel outside the City limits and perform Company business will be compensated and/or reimbursed in accordance with Company Policy.

16. Apprentices

- 16.01. If apprentices are to be appointed to any trade coming under the provisions of this Agreement and are to be instructed in a trade designated as coming within the provisions of the Apprenticeship and Industry Training Act of the Province of Alberta, their instruction and other conditions of their employment will be in conformity with the provisions of the Act and regulations pertaining thereto.
- 16.02. The term of apprenticeship will be as stated in the Apprenticeship and Industry Training Act (Act) including a six (6) month probationary period except that, in cases where a person has attended a technical or vocational school approved by the Minister of Advanced Education and Manpower Development and satisfies the Company by the production of a certificate issued by the school that he has specialized in a course or courses applicable to the trade or had previous experience in the trade, the term may be reduced by such period as may be approved by the Executive Director of Apprenticeship and Industry Training.
- 16.03. As a minimum, every apprentice will have the educational grade requirements as specified in the Act for each individual trade.

The Company may set an educational requirement for a specific trade which exceeds the minimum requirements of the Act.

- 16.04. The Company may employ one (1) apprentice for each two (2) journeymen employed.
- 16.05. During the term of apprenticeship, the Company will give the apprentice such instruction and practical training in all areas of the trade as is necessary to develop a practical and skilled journeyman.

- 16.06. The Company may cancel an apprenticeship of an apprentice who does not show satisfactory progress in his apprenticeship.
- 16.07. Apprentices will not be compelled to qualify for more than one (1) certificate of proficiency, except in instances where the requirements to apprentice for and qualify for more than one (1) certificate of proficiency is so specified on the job posting under which the apprentice is appointed.
- 16.08. An opening for an apprenticeship will first be posted internally as a regular employment opportunity. Criteria for selection will be knowledge, ability, skills, length of service, and the necessary educational qualifications.
- 16.09. For the purpose of selection to an apprenticeship opening, preference will be given to:
- (1) permanent employees in the Business Unit; then
 - (2) permanent employees outside the Business Unit.
- 16.10.*Where two or more applicants are considered equally qualified to be selected for the apprenticeship, seniority in the bargaining unit will be the determining factor.
- 16.11. Should a reduction in the number of employees in the Apprenticeship classifications be required they will occur in the following order:
- (1) First (1st) year apprentices will be the first to be reduced.
 - (2) Second (2nd) year apprentices will be second.
 - (3) Third (3rd) year apprentices will be reduced last.
- Apprentices so reduced will be eligible to revert to their former position, to bump or to be laid off in accordance with the provisions of Article 11.
- 16.12. An employee who has been accepted as an apprentice candidate will be encouraged to write the applicable Apprenticeship and Industry Training entrance examination as soon as possible, but in any event will have written and passed the appropriate Apprenticeship and Industry Training entrance examination by the time he is scheduled to commence his apprenticeship.

17. Safety

- 17.01. The Company and the Union recognize that the provision of a safe work environment is a shared responsibility and that, as a condition of employment, all employees, both Union and Management, are expected to conduct their daily tasks in a manner that is consistent with the philosophy and objectives of the Safety Policy. To this end, the Company and the Union will work together in perfecting regulations which will provide the protection necessary to eliminate injuries.
- 17.02. All employees are OBLIGATED to comply with regulations, EPCOR standards and site procedures. It is the RESPONSIBILITY of every employee to know the health and safety information relevant to their work and to actively participate in safe work planning and hazard controls. All Management, Supervisors and Foremen are ACCOUNTABLE for the safety and health of personnel for whom they are responsible and are OBLIGATED to provide the necessary resources to accomplish these goals.

- 17.03. An employee will not be required to perform any task with which he is not familiar or which cannot be accomplished without violation of safety practices or regulations of the Occupational Health and Safety Act and such refusal will not be the basis for disciplinary or discriminatory action.
- 17.04. Employees are REQUIRED to report any unsafe conditions to their supervisor or the appropriate safety representative. If the unsafe condition is not corrected, then the employee WILL bring the unsafe condition to the attention of the Union.

18. Employee Status

A temporary employee of the Company will not be entitled to become a permanent employee by reason of such employment; unless that employee has been continuously employed for a period of twenty-four (24) months, in a position coming within the scope of this Agreement, in which case that employee will automatically become a permanent employee. Temporary lay-offs of less than twenty-one (21) consecutive calendar days will not be considered as a break in continuous service for the purpose of applying Article 18.

19. Job Evaluation

- 19.01. The establishment and maintenance of a job evaluation system will be the sole responsibility of the Company. The Company will develop classification specifications in accordance with the job evaluation system and will provide specifications as they become available to the Union. Appendix IIA represents a condensation of classification specifications and, as such, forms part of this Agreement.

19.02. Position Reviews

- (a) Where the responsibilities of a position have been significantly changed by Management or the position has changed over time, an employee may submit a request to EPCOR Human Resources for the review of the allocation of their position. The employee will complete a Position Description and submit it to their first-level management supervisor with a copy to Human Resources.
- (b) Within twenty-one (21) calendar days of receipt, the management supervisor must review, verify and sign off the Position Description as submitted by the employee and forward it to EPCOR Human Resources. EPCOR Human Resources will provide a copy of this completed document to the Union.
- (c) Within ten (10) calendar days of receiving the verified Position Description from the management supervisor, EPCOR Human Resources will complete their review of the documentation and issue a written decision. This decision will be communicated to the employee and copied to the Union and the management supervisor.
- (i) Should the Union consider that the aforementioned changes to an existing position are such that they deem a new classification has been created, the Union will advise the Company of this decision and request that the rate of pay for that classification be negotiated.
- (ii) If the position under review is vacant, the Company may post the position immediately and any resulting negotiated increase to the rate of pay will be retroactive to the date of the appointment.

(d) Position Review - Appeals

In the event that the employee disagrees with the decision, and chooses to appeal, the employee must request that the Union initiate an appeal. The request must be in writing to the Union, with a copy to Human Resources and the employee's immediate management supervisor, and made within fourteen (14) calendar days of receipt of the written position review decision from Human Resources. If an appeal is not initiated within this timeframe, the review will be considered concluded and no further employee initiated review can occur for twelve (12) months from the date of the written decision from Human Resources.

Where the Union supports the employee's appeal, the Union will request that the Company arrange for an appeal meeting with the Appeal Committee. The Appeal Committee will be comprised of the employee's appropriate management supervisor, two (2) Human Resources representatives and two (2) recognized Union representatives with classification knowledge and experience.

The Company will develop terms of reference for this Appeal Committee.

Within forty-five (45) days of receipt of the written appeal from the Union, the Appeal Committee will meet to hear the appeal. The employee, the management supervisor and the Union may provide additional information for consideration by the Appeal Committee. Such additional information must be provided to Human Resources fourteen (14) calendar days prior to the date of the Appeal Committee meeting.

It is understood that the decision of the Appeal Committee is final and binding for both parties.

- (e) Should the position allocation change, the date the signed, verified Role Profile arrives in Human Resources will be the effective date of any change in most instances. In extenuating circumstances, where it can be demonstrated that, through no fault of the employee, there was a significant delay in forwarding the Role Profile, an alternate date may be considered. Human Resources will review these circumstances with management, and determine if the date should be prior to the date received in their office.

19.03. New Classifications

- (a) In the event that the Company creates a new classification which is not included in this Agreement and which falls within the jurisdiction of the Union, the rate of pay will be negotiated by the Company with the Union before advertising any position within this classification.
- (b) If a satisfactory conclusion to negotiations has not been reached within seven (7) calendar days of the date of the notice by the Company to the Union of the creation of the said classification, the posting of any vacancy in this classification will be made according to the rates of pay set out by the Company and the rates of pay of the new classification will still be a matter of negotiation between the Company and the Union, and the notice of posting will contain the following statement:

"The final settlement for rates of pay is being negotiated. Any increase to the rates of pay will be retroactive to the date of the appointment."

19.04. In the event that the Company deletes a classification which is included in this Agreement, incumbents of positions allocated to such classification will, if practicable, be transferred to vacant positions for which they are qualified within other classifications.

19.05. Inasmuch as a great deal of the work performed by employees of the Company is of a seasonal nature, the Company may establish positions which have, on a seasonal basis, duties allocated to them which correspond to the duties of two (2) classifications. An incumbent of a dually allocated position, established according to the preceding, will be paid the regular rate of pay of the classification of work being performed.

19.06. Jurisdictional Differences

The Company will advise the Union, prior to implementation, of the assignment of existing or new positions to management or out of scope where those positions may bear on the Union's jurisdiction. The parties mutually agree that the resolution of differences arising from the jurisdictional allocation of positions will be processed in accordance with the Dispute Resolution Process outlined in Article 14 of this Agreement. If, however, a jurisdictional difference is not resolved by the parties and the Union elects to refer the matter to a third party, the dispute will be referred to the Labour Relations Board for a final and binding decision.

20. Training Program for Equipment Operators

20.01. Employees wishing to receive training as equipment operators will be required to make application for training. A training bulletin will be placed on bulletin boards and/or provided directly to the appropriate employees, as required, requesting employees interested in taking training to signify their interest.

20.02.*The Company will be responsible for establishing suitable training programs.

20.03. The training courses may include the following:

- (1) Classroom Training
- (2) Equipment Familiarization
- (3) Field Instruction (Operating time with or without a trainer present)

The training courses will ensure that each operator will have the capacity to operate the equipment in a safe, efficient manner.

20.04. Employees taking training will be required to pass an examination upon completion of their training and show demonstrated ability to operate the required equipment. The nature and content of the examination will be reviewed with the Union prior to the examination being finalized.

20.05. Employees not successfully completing their training will be excluded from appointment to the operator class being trained for. Such employees will have the right to re-enroll for additional training in subsequent training programs.

20.06. Employees who are unsuccessful in passing training examinations on three (3) successive occasions will not be considered for further training on that type of equipment.

20.07. Training opportunities will be provided to employees giving due consideration to seniority and operational requirements.

20.08. Equipment Operators may be required to take re-training courses to meet changing operational requirements. Permanent Equipment Operators who fail to pass examinations on re-training courses will be allowed the opportunity to write supplemental examinations.

21. Operation of Company Vehicles and Equipment

21.01. The Company and the Union recognize that operation of Company vehicles and equipment is an integral part of the operations. Employees are required to comply with Company policies and operate their vehicles and equipment in a safe, responsible and professional manner.

21.02. Incidents/collisions will be investigated quickly and fairly. Employees will participate in critical incident reviews to determine causes and actions aimed at preventing reoccurrence.

22. Employee Training and Career Development

There is a shared commitment to Training and Career Development by the Company and employees covered by this Agreement. Training and Career Development are both employee and Company initiated and Company supported. Educational funding for employees will be governed by the Company's policy on Employee Training and Career Development.

23. Employee Rehabilitation and Accommodation

23.01. The Company and the Union will co-operate in an Employee Rehabilitation Program on mental health, drug abuse and alcoholism.

23.02. The Company and the Union will co-operate in seeking accommodation and/or placement of employees being medically declared fit to return to work following a period of disability during which they were in receipt of Workers' Compensation, Income Protection or Long Term Disability benefits.

24. Part-Time Employees

In the event that the Company creates or requires part-time employees within the jurisdiction of the Union, the parties agree that prior to posting or filling these positions, the Company and the Union will have a consultative meeting to review and discuss the operational requirement for the use of part-time employees and confirm the terms and conditions.

Except as hereinafter provided, Article 6. "Working Conditions" and Article 18. "Employee Status" will not apply to part-time employees, but the following clauses will prevail:

24.01. Working Conditions

(a) Hours of Work

- (i) Part-time employees will be scheduled to work less than forty (40) hours per week.
- (ii) Part-time employees will not be scheduled to work more than six (6) days per week or more than eight (8) hours per day.

(c) Overtime Work

Where a part-time employee is required to work hours in excess of eight (8) hours in one day, or forty (40) hours in one week, he will be paid two (2) times his regular rate of pay for such hours worked. The provisions specified in Clause 6.02(d) will apply to part-time employees.

(g) Temporary Change of Duties

The provisions specified in Clause 6.06. will apply to part-time employees.

24.02. Employee Status

Since part-time employment is not continuous service, part-time employees will not be entitled to become permanent employees by reason of such employment.

24.03. Fringe Benefit Entitlement

Part-time employees will be entitled to all benefits commensurate with their status as temporary employees, except that payment received for such benefits will be governed by the following:

(a) A day's pay will be equal to the product of the employee's regular rate of pay of the position to which he is normally assigned, multiplied by the employee's average daily hours of work.

(b) The employee's average daily hours of work will be calculated as follows:

$$\text{Average daily} = \frac{\text{Total straight-time hours worked in the nine hours of work}}{\text{(9) weeks preceding the date of entitlement}} \\ \text{45 days}$$

24.04. Part-time employees who occupy positions in a classification with an incremental pay range will be entitled to progress through such pay range based upon the completion of hours of work, as outlined below:

An increment based on twelve (12) months' service: Completion of two thousand and

eighty (2,080) hours.

25. Conformity to Federal and Provincial Legislation

26. Edmonton Civic Employees Charitable Assistance Fund

A payroll deduction in an amount not to exceed one-half (1/2) of one (1) percent will be made from the wages of all employees covered by this Agreement. Such deductions will be on a bi-weekly basis and will be forwarded to the Secretary Treasurer of the Fund at the end of each pay period together with a list of employees from whom deductions have been made. The Union will notify the Company thirty (30) calendar days prior to the implementation of any change to the amount of the payroll deduction.

Appendix IA – 2024 to 2026 Notes

1. Leadership / Responsibility Pay Guidelines

Clause 6.13 provides for the payment of a Leadership / Responsibility Pay for those employees exercising leadership roles beyond the normal scope of their responsibilities. Further to the wording in Clause 6.13, these guidelines will provide direction and various examples of when this pay will apply.

- (1) Should an employee be responsible for managing the work for an external customer (e.g. Canada Lands or Shell Scotford contracts), the employee will receive the pay.
- (2) Large-scale capital or contract work frequently requires larger crews or the utilization of specialist contractors (e.g. directional drillers). In addition, the nature of the work may require that the job be split into two or more different components that must proceed concurrently. In those cases where a large crew has been assembled and an employee is required to either exercise direct supervision of a specialist contractor or control a significant component of the job which is beyond the normal scope of their responsibilities, the employee will receive the pay.
- (3) In those cases where a crew is required to travel to another community to perform work, the crew leader will receive the pay for those hours worked in the external community. Additionally, in those cases where an individual technical or specialist employee travels to another community to perform specialized technical work for an external contract / community, the individual will receive the pay for those hours worked in the external community.
- (4) Single traded or dual traded employees who are required to supervise a field crew of at least three (3) employees will receive the pay.
- (5) The pay will not be paid for work that is considered to be normal work assigned to that classification. Some examples of work to be excluded from the pay include truck driving, vector supervision and performing work under the supervision or at the direction of the Labour Foreman I.

It is understood between the parties that this pay will be paid to employees based on the review and prior approval of their management supervisor and in accordance with the guidelines outlined above. The review and approval by the management supervisor will occur in advance of the work being performed and / or the employee(s) travelling out of town to perform the work.

2. Labourer II Pay Progression

- (1) Temporary employees hired or rehired as Labourer II's will be placed on Appendix I at a step that is commensurate with the employee's direct and indirect experience as a Labourer II (Employees hired into permanent postings will only be placed at the job rate). Placement on Appendix I will be at the discretion of management following an assessment of the employee's work experience within and outside the Company.
- (2) Once an employee is placed on Appendix I, they will progress to the next step once they start their one thousand and fortieth (1040th) regular straight time hour. An employee will spend one thousand and thirty-nine (1039) hours at each step in Appendix I until they reach step C (Step D Job Rate in previous CA).
- (3) Temporary employees who complete their temporary term or who are engaged in seasonal work in this classification will retain their hours worked at each step until such

time as they reach one thousand and forty-three (1043) hours and are eligible to progress to the next step.

3. Developmental Wage Schedule

- (1) Should an employee be placed in a role where they do not meet the qualifications fully, and are receiving guidance/additional support from a qualified individual or where they are not performing the role in its entirety, they will be paid the developmental rate as per Appendix IB.
 - (2) The developmental rate of pay will be based on the respective classification in Appendix IA, at ninety percent (90%) of the job rate.
 - (3) The employee will progress to the job rate for the classification once they have worked a total of one-thousand and forty (1,040) hours at the developmental rate.
 - (4) An employee working as a Water System Serviceman at the developmental rate (Class Code 8214) will progress to the job rate once they have worked a total of five-hundred and twenty (520) hours.
 - (5) Employees who have worked at the developmental rate in either of the Water System Technical Support / Specialist or Labour Foreman III classifications will receive credit for Equipment Operator Rate – Up - Gold Bar Waste Water Treatment Plant
- (4) Positions at the Gold Bar Waste Water Treatment Plant may rate up to Class Code 8602 (Equipment Operator III) when operating any of the following equipment:
- (a) Skid Steer Loader
 - (b) Clamshell
 - (c) Front End Loader

5. Water System Servicemen Class Code 8211 – identified as a DRC Eligible Position

During discussions in early 2012 with Alberta Environment, it was confirmed that the Water System Serviceman (class code 8211) should in fact be recognized as a DRC eligible position identified by the nature of the work in this role. An asterisk has been added to the Appendix I Wage Schedule by Class Code 8211 to identify this change.

6. An employee operating a vehicle that requires a Class 3 license that has a Q rating/endorsement may rate up to Class Code 8613 while performing the work.

The Company will notify the Union at the earliest opportunity of the intent to reduce permanent positions and employees who are to be impacted.

Employees potentially affected will be advised to assist in exploring appropriate alternatives to lay-off.

Permanent employees who are displaced from their permanent positions or are laid off as a result of the reduction of permanent positions will receive appropriate notice in accordance with the Employment Standards Code.

Non-permanent employees within the class code level to be reduced shall be laid off prior to the removal of permanent employees from the class code level.

11.03 The layoff provisions will not apply in those instances where the cessation of work is estimated to be of a duration of one (1) calendar week or less. In such cases, the Company will determine which employees will be affected with due regard for seniority, however, it is understood that seniority in these instances will not override bona fide operational concerns. Employees will have the option, with the approval of the Company, to use vacation or banked overtime credits rather than be laid off for any days applicable to this clause. The Company will also make every reasonable effort to retain employees for the duration of the short-term lay-off in other alternate work.

11.04 Displacement (Applies to Trades and Dual Trades Series only)

A permanent employee affected by workforce reduction may exercise displacement rights provided the employee has the required qualification, skills and knowledge to perform the duties of the position and is senior to the employee being displaced.

STEP 5: Placement in a vacant full time position at same class code level at any of the sites.

Further options for placement will continue under Steps 3, 4 and 5 until options have been exhausted or the employee elects to be laid off.

b) When an apprentice job is abolished in accordance with 11.02, such employee may, at his option, exercise displacement rights within the class code level, within and between either of the sites, provided that he is qualified and capable of performing the duties of the job, and provided that such job is within the jurisdiction of CUPE Local 30.

11.05 Layoffs (Applies to Trades and Dual Trades Series only)

a) An eligible permanent employee, removed from a class for the purpose of layoff, may elect to revert to a job previously held on a full-time permanent basis within any class and exercise displacement rights, otherwise the employee shall be laid off from the Company.

b) Permanent employees to be laid off from permanent jobs shall receive a minimum of fourteen (14) calendar days' notice of such layoff. In the event that notice is not provided, the Company shall provide the employee with a payment equal to the wages

the employee would have earned had he worked his regular hours of work in the fourteen (14) day period. The Union shall be notified when layoffs are contemplated.
